

(2) to provide education to the nurse research scientists who can develop new nursing care models to improve the health status of the diverse population of the United States;

Whereas nurses touch the lives of the people of the United States through every stage of life; and

Whereas nursing has been voted the most honest and ethical profession in the United States: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the goals and ideals of National Nurses Week, as founded by the American Nurses Association;

(2) recognizes the significant contributions of nurses to the health care system in the United States; and

(3) encourages the people of the United States to observe National Nurses Week with appropriate recognition, ceremonies, activities, and programs to demonstrate the importance of nurses to the everyday lives of patients.

#### SENATE RESOLUTION 209—RECOGNIZING THE WORK AND CONTRIBUTIONS OF DOULAS TOWARDS IMPROVING PREGNANCY, BIRTH, AND POSTPARTUM OUTCOMES

Mr. DURBIN (for himself and Ms. COLLINS) submitted the following resolution; which was considered and agreed to:

S. RES. 209

Whereas doulas can play an important role in—

(1) maternal care; and  
(2) addressing maternal mortality and morbidity in the United States;

Whereas doula support includes continuous non-clinical 1-on-1 emotional, physical, and informational support around the time of birth, including during pregnancy and postpartum;

Whereas doulas empower mothers with information about pregnancy and childbirth;

Whereas studies have shown that doula-assisted mothers are 4 times less likely to have a low birth weight baby, and 2 times less likely to experience complications during pregnancy;

Whereas research indicates that, with the support of doulas, women are—

(1) more likely to have vaginal births; and  
(2) less likely to require epidural anesthesia;

Whereas, in 2013, the Expert Panel on Improving Maternal and Infant Health Outcomes in Medicaid and the Children's Health Insurance Program of the Centers for Medicare and Medicaid Services identified providing coverage for continuous doula support during labor as a potential strategy to enhance maternal and infant care management;

Whereas the presence of a doula during pregnancy, childbirth, and postpartum helps foster shared decision-making for birthing women by facilitating communication between women and their providers;

Whereas a doula provides continuous support during labor and delivery and can alert hospital staff to signs and symptoms of complications that require immediate medical attention, thus lowering the risk of escalating complications for the mother and baby;

Whereas access to doula support services, especially in underserved communities, may contribute to—

(1) improved birth outcomes, both physically and emotionally; and

(2) lower health care costs by reducing the risk of—

(A) low birth weight babies;  
(B) complications that might otherwise go unnoticed;  
(C) low-risk cesarean deliveries; and  
(D) epidural anesthesia;

Whereas training members of underserved communities to become doulas and support mothers in their own communities can—

(1) help provide employment opportunities for improving maternal health; and

(2) build trust and reduce adverse consequences of racial bias for pregnant and postpartum women of color; and

Whereas community-based maternal health care models, including doula support services, in collaboration with obstetrical care, show great promise in improving, and reducing disparities in, maternal health outcomes: Now, therefore, be it

*Resolved*, That the Senate—

(1) recognizes the important role of doulas in providing respectful, responsive care to all women, including women in underserved communities who lack access to maternal health services;

(2) acknowledges that doula support services provide continuous physical and emotional support to help mothers achieve healthy pregnancies and safe deliveries and recoveries;

(3) urges greater recognition for the important role that doulas play in—

(A) supporting improved pregnancy, birth, and postpartum outcomes, including maternal mental health;

(B) reducing health care costs and working towards the elimination of health disparities; and

(C) overcoming barriers for assisting low-income women of color and women in rural areas with access to health and social supports;

(4) designates the week beginning May 9, 2021, as “Doula Week” to raise awareness for, and advocate for the benefits of, doulas and the support services doulas provide; and

(5) recognizes the importance of access to doula support services, especially in underserved communities.

#### SENATE RESOLUTION 210—DESIGNATING JULY 21, 2021, AS “GLIOBLASTOMA AWARENESS DAY”

Mr. GRAHAM (for himself, Ms. SINEMA, Mr. KELLY, Mr. COONS, Ms. WARREN, Mr. MARKEY, Mr. RUBIO, and Mr. WARNOCK) submitted the following resolution; which was considered and agreed to:

S. RES. 210

Whereas approximately 13,000 new cases of glioblastoma will be diagnosed in the United States in 2021;

Whereas glioblastoma is—

(1) the most common malignant, cancerous brain tumor, accounting for approximately half of all primary malignant brain tumors; and

(2) the most aggressive, complex, difficult to treat, and deadly type of brain tumor;

Whereas it is estimated that more than 10,000 individuals in the United States will succumb to glioblastoma every year;

Whereas the 5-year survival rate for glioblastoma patients is only 7.2 percent and the median length of survival for glioblastoma patients is only 8 months;

Whereas glioblastoma is described as a disease that affects the “essence of self”, as the treatment and removal of glioblastoma presents significant challenges due to the uniquely complex and fragile nature of the brain, the primary organ in the human body

that controls not only cognitive ability but also the actions of every organ and limb;

Whereas, relative to other types of cancers, brain cancer has—

(1) the highest per-patient initial cost of care, with an annualized mean net cost of care approaching \$150,000; and

(2) the highest annualized mean net costs for last-year-of-life care, with a cost of between \$135,000 and \$210,000 per patient, depending on the age and gender of a patient;

Whereas, although research advances may fuel the development of new treatments for glioblastoma, challenging obstacles to accelerating progress toward new treatments for glioblastoma remain and there are no screening or early detection methods;

Whereas, although glioblastoma was first described in medical and scientific literature in the 1920s, and despite its devastating prognosis, only 4 drugs and 1 medical device have been approved by the Food and Drug Administration to treat glioblastoma since the 1920s and the mortality rates associated with glioblastoma have changed little during the past 30 years;

Whereas, as a promising first step since the first Glioblastoma Awareness Day, the National Cancer Institute established the Glioblastoma Therapeutics Network (referred to in this preamble as “GTN”) in 2020, as part of a national infrastructure to enhance and support the discovery and development of glioblastoma therapies, with an initial \$6,000,000 available for multi-institutional GTN teams to drive therapeutic agents through pre-clinical studies and early-phase clinical trials necessary to rapidly evaluate potential treatments to advance toward cures and improved quality of life; and

Whereas there is a need for greater public awareness of glioblastoma, including awareness of both—

(1) the urgent unmet medical needs of glioblastoma patients; and

(2) the opportunities for research and treatment advances for glioblastoma: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates July 21, 2021, as “Glioblastoma Awareness Day”;

(2) encourages increased public awareness of glioblastoma;

(3) honors the individuals who have lost their lives to glioblastoma, a devastating disease, or are currently living with it;

(4) supports efforts to develop better treatments for glioblastoma that will improve the long-term prognosis and quality of life of individuals diagnosed with the disease;

(5) expresses its support for the individuals who are battling brain tumors, as well as the families, friends, and caregivers of those individuals;

(6) urges a collaborative approach to brain tumor research, which is a promising means of advancing the understanding and treatment of glioblastoma; and

(7) encourages continued investments in glioblastoma research and treatments, including through the Glioblastoma Therapeutics Network and other existing brain tumor research resources.

#### SENATE RESOLUTION 211—EXPRESSING THE SENSE OF THE SENATE THAT, DURING PUBLIC SERVICE RECOGNITION WEEK, PUBLIC SERVANTS SHOULD BE COMMENDED FOR THEIR DEDICATION AND CONTINUED SERVICE TO THE UNITED STATES

Ms. SINEMA (for herself, Mr. LANKFORD, Mr. PETERS, Mr. PORTMAN, Ms. HASSAN, Mr. ROMNEY, Ms. ROSEN,
